SOFT & COSY

Kids love fluffy, tactile fabrics and Sirdar's popular Snuggly Snowflake fleece yarn is just the thing for creating huggably soft toys, such as this fabulous lamb (pattern 4610). The yarn combines brilliantly with Baby Crofter, which knits into a Fair Isle pattern, and looks great in these wonderfully textured hot water bottle cosies (pattern 4609). The patterns cost just £2.65, find out more online.

Treat your fellow knitters with one of these delightful kits – they're brilliant last-minute gifts and are super cute too! This handsome lion is knitted in Sirdar Snowflake Chunky and costs £14.99.

ALL KITTED UP

This pretty doll kit from Wendy costs £24.99 and includes all your yarn, full pattern and sweet buttons, while the DMC fox kit (£18.99) comes with merino wool, embroidery cotton, pattern and knitting needles.

WOODLAND WONDERS

The trend for cute forest-dwelling animals is as strong as ever! Check out these adorable patterns from King Cole. Choose from hedgehogs and squirrels in pattern 9012 or badgers and squirrels in pattern 9011. They cost £2.65 each and the soft Merino Blend DK yarn is just £2.99 per 50g (112m) ball!

To work this pattern flat instead of in the round, work Rows 1-3 in garter stitch then convert Row 4 and every alternate row to purl rows for the body and Row 2 and every alternate row as purl rows for crown shaping. For the Topper work all alternate rows plus Row 11 as purl rows.

We think there is nothing cuter than a little person dressed to the nines in handknitted festive attire and our handsome model Jack is no exception. Knitted in a great value metallic yarn, held double for extra insulation, this pattern is worked in the round but it could easily be worked flat making it an easy project for newbie festive knitters.

THAT'S A WRAP

The abbreviation w&t means wrap and turn, and is used in the short-row shaping technique. It's used to create the perfect shape on Santa's hat, and here's how you do it: Take the yarn between the needles to the opposite side of the work. If it's a knit row, move the yarn from the front to the back, and if it's a purl row, bring it from the back to the front. Slip the next stitch from the LH needle on to the RH needle purlwise. Now, return the yarn to its original position, moving it between the needles, then pass the slipped stitch back to the LH needle. Lastly, turn your work and continue back along your row, leaving the remaining stitches unworked. To ensure a neat finish, you need to make these wraps invisible by knitting them together with the stitch on the following row. See our Special abbreviations above for guidance.

This striking accessory is worked in stocking stitch and garter stitch so is the perfect choice for a spot of personalisation. Why not add stripes or Swiss darn a motif on part of the scarf? If you're feeling really adventurous you might even want to play around with some different stitch patterns to add more texture to your scarf.

Perfect for beginners, this big and bold accessory uses just knit and purl stitches and there is no shaping at all! Knitted on 10mm needles, it is wonderfully chunky and

grows quickly as you work, and the colour effects in the yarn keep it interesting. The scarf is finished with classic tassels, but you could get creative and opt for pompoms instead!

HOOKED ON BEADS

Add your beads while you work using a tiny hook. Here's how to do it:

Step 1: slide the bead on to your crochet hook, then insert the hook purlwise into the loop of the stitch on the LH needle.

Step 2: slip this stitch off the needle and use the hook to pull the yarn through the bead creating a small loop.

Step 3: place this loop back on the LH needle and continue working as normal.

"This pattern is great for beginner sock knitters as it uses in some key techniques but is largely worked flat."

LYNNE ROWE

There are few fibres softer than the fleece of a baby alpaca (and they're super cute too)! These cosy socks are a slice of pure luxury. If you're a beginner sock knitter, this pattern is a great introduction as it features two key sock knitting techniques – turning the heel and grafting the toe – but is otherwise knitted flat.

Cloud Nine

Lynne Rowe's luxury bedsocks are a dream to curl up with over the chilly months

Swarovski, chaton montees cost £1.90 per pack (24 beads) and Swarovski crystal bicones xillion cost £1.80 per pack (24 beads) from **01509 218028**, www.beadsdirect.co.uk

Small projects are just the thing for practising new techniques and these two designs have plenty to keep you interested. There are twists, eyelets and two-row bobbles; read how to do these in our Knitwise panel. The lace patterns may need blocking to get them to lie flat (see page 93), but be careful not to press the bobbles or beads.

"Juniper Moon Farm Herriot is a lovely soft yarn, and the lattice stitch makes a simple texture for the front with plenty of depth, making this a cosy project for winter"

The hot water bottle cover is knitted in alpaca yarn, which means it is naturally soft and the fibres are great for those allergic to wool. This cover would make the perfect gift for a child - just remember not to use boiling water in the hot water bottle and ensure the lid is screwed on tightly.

A quick chat with...

DEBBIE HUMPHREYS

owner of Redhound For Dogs and author of Dogs in Jumpers

"My shivering whippet, Bruno, was the inspiration for me to pick up the knitting needles after nearly 30 years as he needed a jumper to keep his skinny bones warm, and I couldn't buy one to fit him! I am so glad of this as my passion for the craft became a way of life for me, so much so that I have now fulfilled my dream and written a book, Dogs in Jumpers (14.99, Pavillion).

Writing this book was a very exciting process. I began by choosing a colour palette, selecting yarn and choosing the dog models to design for. I know most of the dogs so had a good idea what would suit them! I researched lots of vintage patterns to revitalise some wonderful textured stitches that haven't been seen for decades and designed my jumpers and coats around this.

I think it is really important to have a hard copy of a pattern rather than just something on a screen, as you can write on it as you go, tick off rows, etc, and mark where you are when you have to put your knitting down! I realise that no one will want to write on the pages of a lovely book, so I just photocopy the pages and use this to scribble on!"

Tweedle Dee

Rediscover traditional and modern tweed yarns

Tweed has a glorious rich heritage and is tied to the traditional manufacturing communities of the Outer Hebrides and County Donegal making it a truly local fabric. So being knitters, we think nothing completes a winter morning walk like cosy tweed

knit. Lucky for us, there are some fabulous new tweed yarns on the market, flying the flag for the traditional style. So we've rounded up eight of our favourites to see you through the chilly seasons in classic yet on-trend style.

1. Debbie Bliss Paloma Tweed

Lightweight and airy yet super warm and cosy, this yarn's chain structure is perfect for textured chunky knits with character. It comes in bursts of colour and subtle pastel shades perfect for baby knits. The alpaca content makes it a joy to work with. One 50g (65m) skein costs £6.25 from

01829 740903,

2. Rowan Hemp Tweed

As the name suggests, this new yarn from Rowan is a 75% wool, 25% hemp blend and is beautifully soft and easy to work with. It has light tweedy streaks subtly running through to complement each shade. In a DK weight, knit any DK pattern in this for added charm. One 50g (95m) ball costs £4.50 from **0131 558 1747,**

www.blacksheepwools.com

4. Stylecraft Alpaca Tweed DK

Made from 20% alpaca fibres, this new acrylic yarn from Stylecraft is super soft, fluffy and is budget friendly too. Surprisingly for a luxury fibre, it's machine washable up to 30°C which is an added bonus and it comes in a great range of shades. One 100g (210m) ball costs £4.40 from **07974 954663,**

ON SALE THURSDAY 24th December

Dear Let's Knit,

Members of the Dickson Court Craft Class in West Calder, West Lothian, completed their Secret Garden knitalong blanket! The class consists of tenants from the Sheltered Housing Complex and members of the local community. There are 12 members in total and all are senior citizens. The group knitted the squares of their choice then one member put them together. It was decided to add a lovely picot style edging using all the shades in the blanket. The project was created through a combined effort of group members with a great deal of interest, enthusiasm, pleasure and camaraderie, and we must say a big thank you to Let's Knit for giving us the opportunity by providing the variety of patterns on a monthly basis.

EILEEN MILNE

What a brilliant group project! It's great to see communities coming together and we're so glad that you loved our design. Look out for a new knitalong blanket starting next issue!

PURLS OF WISDOM

By Claire Thomas

Merry Cruisemas

This year, I've been getting into the spirit of things. Christmas shopping is almost complete, I've actually written cards, the tin of very special chocolate biscuits in the cupboard has been duct taped shut as insurance against nocturnal hungers, and I am sewing cute bells to the wrist of Scandi reindeer-patterned fingerless gloves. It's the most wonderful time of the year.

Do you know what would make it a brilliant Christmas though? A knitting cruise. And this week I discovered an American company which is running one. Starting from Florida, the jammy dodgers who secure themselves a

berth will cast on for three days of knitting master-classes, fully catered, and even including a knitalong session featuring a specially designed mystery pattern. Just imagine how brilliant a Christmas knitting cruise would be! Floating on an ocean palace in the sapphire seas of the Caribbean, with staff to cook, clean and bring you stolen cake every hour and cocktails at six, instead of unwrapping yet

"JUST IMAGINE HOW BRILLIANT A CHRISTMAS KNITTING CRUISE WOULD BE! YOU WOULD FEEL ALL RESTED WITH CASE FULL OF BEAUTIFUL COMPLETED KNITTING"

another box of undistinguished smellies or thanking someone who you really thought knew you better than that for a blouse the colour of a hangover. You'd awaken well-rested to a cooked breakfast and knit gently with like-minded souls until you're called for a restaurant-standard dinner, instead of getting up at four a.m. to ram a turkey into the oven and arguing all

day about whether or not to watch the Queen's Speech. And when the Christmas holiday drew to a close, you would feel all rested, and more importantly would have a trolley case full of beautiful

completed knitting, instead of three miserable, error-ridden, sweated-over rows that you managed to do before you had to boil a hundredweight of sprouts

that no-one ate anyway. "But Christmas is for family!" I hear you cry. I know. I know. Christmas is for falling asleep by the fire, paper hat askew, after one too many liqueur chocolates, while your kids adorn the new Action Man with extravagant facial hair in permanent marker. Christmas is for the zombie turkey that can't be stopped from coming back again and again, in curry and sandwich and pie, reinventing itself like a culinary Madonna. I would never abandon my feral, Selection Box-stealing family to enjoy Christmas with the kind of people who would employ waiters to tenderly drop Maltesers into my mouth while I negotiated a tricky three-needle cast-off. I'll never get a Christmas off, but it doesn't mean I don't regret it slightly though. Hmm, I wonder if they might launch another cruise in June?

This pattern instructs you to turn in the middle of a row. This is really easy to do. Normally, when you reach the end of the row, you turn the work – the needles swap in your hands and you start knitting in the other direction. In this pattern, you need to do the same thing, but you do it part way across the row. Simply change the needles over in your hands, leaving some stitches unworked. Now work back over the stitches you have just knitted.

a small gap. Turn right way out and close gap. Turn yarn B side to inside and stitch Calyx to one end. For Pusycat, place two Body and head pieces with RS together, and sew all round, leaving a small gap in base. Turn right way out, stuff, then close gap. Stitch Ears to Head and attach Arms. Sew Muzzle to face, then embroider features in black DK, using photo as a guide. For Owl, make up Body and head as for Pusycat, then stitch across top corners to create ear tufts. Sew on Eyes and embroider centres in black and beak in yarn E. Attach Wings. Using knitted Guitar as template, cut out a matching foam shape, and sandwich between two knitted pieces. Oversew edges together. Cut a small circle of red felt and sew to front of Guitar. Use black yarn to embroider strings **LK**

Carrying the yarn not in use up the side of the work means you'll have fewer ends to sew in at the end, but remember to twist your two colours together after every few rows to avoid big loops. When joining in a new yarn never knot the ends together - simply leave a long tail and start knitting.

"Over the years, Sarah Neal has challenged me to come up with such a wide range of different projects, from adult jumpers to baby clothes and, of course, all kinds of home makes, toys and novelties. I love designing garments and my favourite is probably the striped cardigan from issue 27. I liked it so much I made myself a long version. I was thrilled when a Let's Knit reader sent in a picture of the cardigan she made using my pattern: she was really pleased with the result."

Midwinter Spirit

Cosy up with this cabled cardi from **Rowan**

Designed by Sarah Hatton in a buttery soft alpaca-blend yarn, this cardigan is full of wonderful textures that are fun to knit and look fabulous! There's actually only one type of cable used, but the deep ribbed sections and wide collar add to the tactile finish. Cables are really easy to do, yet look so impressive when worked into a full pattern like this - expect lots of compliments when you wear your new creation!

Start knitting here...

For example, the sleeve increases should be worked at the end of RS rows, which means you will cast on at the beginning of the WS row.

The instruction to slip two stitches with your yarn held at the front of the work (sl 2 wyif) is what makes the chevron pattern. It's important that you bring the yarn to the front before slipping the stitches and then take it to the back of the work again before working the next knit stitch.

Orchid Kiss

Kelly Menzies' soft & cosy set features a beautiful textured pattern

Knitted in a soft, fuzzy alpaca yarn, this set will not only keep you warm over the chilly months but ensure that you're stylishly dressed in luxury fibres and on-trend textures.

A slipped stitch pattern creates a gorgeous chevron effect which complements the multi-tonal purple shades of the yarn. The slouchy fit of the hat is also great for a casual look.

CHIC SWEATER

January issue of Let's Knit on sale
THURSDAY 24TH DECEMBER

Learn Fair Isle with your FREE YARN KIT!

ADRIENNE CHANDLER INTRODUCES YOU TO THIS FABULOUS COLOURWORK TECHNIQUE

This issue we've given you a bumper yarn kit and five of the accompanying patterns use the stranded colourwork method, more commonly known as Fair Isle. Stranded designs look really impressive and when you realise that you are only ever using two colours on a row, you won't want to wait to try it! Here's a guide to the need-to-know elements of the technique to help you make the most of your free yarn kit.

HOW TO HOLD THE YARNS

In the English style of knitting, we usually work with two yarns in the same hand. It's important to try to keep the tension of all the yarns you are stranding across the back of the work as this will create a more even finish. Tension your background colour with your index finger and your accent colour with your middle finger.

The yarn tensioned by your middle finger will run underneath the yarn tensioned by your index finger, and this colour will stand out slightly more than the other. Most people prefer to have the accent colour as the dominant shade, so carry this one underneath, but see which you prefer!

Accent colour

Accent colour

Accent colour

Accent colour

AS THIS TECHNIQUE CREATES A DOUBLE THICKNESS OF FABRIC, CARRY BOTH YARNS TO VERY ENDS OF EACH ROW TO MAINTAIN AN EVEN FINISH

Two-handed colourwork

Knitters who are familiar with the continental method, where you control the yarn in the left

hand, might want to tension each colour with a different hand. The right hand controls the background shade, and the left hand manages the accent colour.

How to change COLOUR

ON A KNIT ROW

Step 1: bring yarn B (blue) from underneath yarn A (red) and knit the next stitch in yarn

Step 2: to change back to yarn A, bring yarn A over the top of yarn B and knit the stitch in yarn A

ON A PURL ROW

Keeping the floats in the same relative position, bring yarn B up from underneath yarn A, and move yarn A over the top. It can be tricky to keep your floats even on purl rows as you can't tension the yarn in the same way, but try to keep your work as even as you can and take care not to pucker the stitches.

CATCHING YOUR FLOATS

If there are more than five stitches between your colour changes, it is a good idea to catch the carried strand to prevent large loops forming.

Catching the lower yarn

Step 1: bring yarn B (grey) up from underneath yarn A (blue)

Step 2: knit the next stitch in yarn A then take yarn B downwards so it is back below yarn A and knit the next stitch with yarn A

How it looks from the WS

Catching the upper yarn

Step 1: take yarn A (blue) below yarn B (grey)

Step 2: knit the next stitch in yarn B then bring yarn A back above yarn B and knit the next stitch with yarn B

How it looks from the WS

"Your free yarn kit contain five fab shades, so you can get really creative now you've mastered the technique"

LK Deputy Editor **Adrienne Chandler**

CHARTS

Due to the many colour changes in stranded colourwork patterns, you will often find the designs are presented in chart form. They're easy enough to follow, just remember these basic points:

- Right side rows are read from right to left and wrong rows from left to right
- Start at the bottom and work upwards
- One chart square equals one stitch
- The colour of the chart square indicates which yarn to use
- If your chart has a boxed repeat, work the boxed section the instructed number of times, before completing the remainder of the chart

WHAT IS...BLOCKING

Finished knits look so much better after blocking, so what is this mysterious process? Simply dampen your project by soaking in wool wash, spraying or using steam from an iron, shape it (using pins if necessary) and leave it to dry. Your stitches will relax and look much neater. Try it – you'll be amazed!

Ask Martine

Q Someone has asked me to teach them how to knit – have you any advice?

A Teaching knitting can sometimes be a little challenging. However, these top tips will help to give you the best chance of success.

1. Lend your learner some nice needles, such as wood or bamboo, as quality tools can really enhance the knitting experience. Encourage them to choose their own yarn, although steer them towards something light and chunky so they can see their stitches easily.
2. Cast on for your learner and knit the first few rows. Casting on can be one of the trickiest things to learn, so don't teach it first, or you might lose your learner's interest. Start with a garter stitch square; if this works out it can be the start of a patchwork blanket or seamed to make a fingerless mitt.
3. Encourage them to count their stitches after every row so they can spot dropped stitches in time to fix them, and teach them how to 'tink back' their work, or knit backwards. Not only does this help them fix mistakes, but it really gets them thinking about the anatomy of knit and purl stitches.
4. Rhymes can be helpful for remembering, especially for children. For knit, use "in through the front door, once around the back, out of the window, and off jumps jack". For purl, use "under the fence, catch the sheep, back we go, off we leap".
5. Knitting should be a calm and relaxing pastime, but learning a new skill can sometimes be daunting. Sit beside your learner and be encouraging. Take regular breaks. Tea and cake is always a good idea!

HOW ABOUT YOU?

We asked you for your tips on teaching others to knit:

"Huge needles and chunky yarn aren't necessarily best for new knitters – they can be cumbersome. I find aran yarn and 5mm needles more comfortable." **Pippa Smith**

"Keep at it! Sometimes it takes a long time!"

Ending a round with a long stitch such as a treble means that your hook is at the top of a loop and saves you from having to join the round with a slip stitch, followed by slip stitching up to the top of the loop. In snowflakes 2 and 3, making your slipknot so it pulls tight from the short (tail) end will give you a neater centre. Alternatively, you could start with a magic ring.

Now all your handmade gifts are wrapped and ready to go, it's time to turn your attention to last-minute festive flourishes, like these charming snowflakes. They're worked in a mercerised cotton yarn that has a pretty sheen and will twinkle under your Christmas tree lights! The bangles can be found in most high street accessory stores or on www.ebay.co.uk or www.amazon.co.uk

TENSION HEADACHE

It's really important to knit tension square before you begin a project. Not everybody knits the same way - some knit more tightly than others - and this will affect how the stitch pattern looks and the finished size of the item. Tension squares are usually presented like this:

22 sts x 30 rows
10cm x 10cm
stocking stitch
4mm needles

To knit your tension square, cast on the instructed number of stitches, in this case 22, plus five more. Then, using the needle size and same stitch pattern given, work the instructed number of rows, plus five more. Using a ruler and taking your measurements from the centre of the square, count the number of stitches and number of rows over a 10cm square. If you have more than you should do, it means your knitting is a little tight and you may need to use larger needles. Similarly, if you have fewer stitches and rows, use smaller needles to get the correct tension.

"Using the correct size of needles for the yarn weight helps to produce a taut, neat fabric"

AT A LOOSE END?

Follow these steps for weaving in any tails of yarn:

1. Thread the yarn on to a tapestry needle and work with the WS of the project facing upwards.
2. Insert the needle under the loop of each stitch, and draw it through. Work it

up and down the loops of the stitches for 8cm. An alternative method is to weave through the back of the stitch, splitting the strand of yarn as you sew.

3. Cut the yarn close to the fabric.

NOTE: In colourwork, weave the yarn tails into the matching colour section.

SUBSTITUTION

There are many reasons to want to substitute the yarn given in a project, from price to colour selection, but there are some important points to remember.

- Choose a yarn with a similar tension to the suggested yarn. Match the tension given on the ball band of the yarns, as the pattern may use a different stitch. Remember to do a tension square in the new yarn before you begin.
- Consider the fibre content of the yarn and how this might affect the finished project. For example, cotton yarn will knit up very differently to a wool yarn.

- Don't forget to check the care instructions of your new yarn. Not all yarns are machine washable.
- Look at the meterage of the new yarn, rather than the weight of the ball. Not all 50g balls have the same meterage and you don't want to run short when nearing the end of your project.

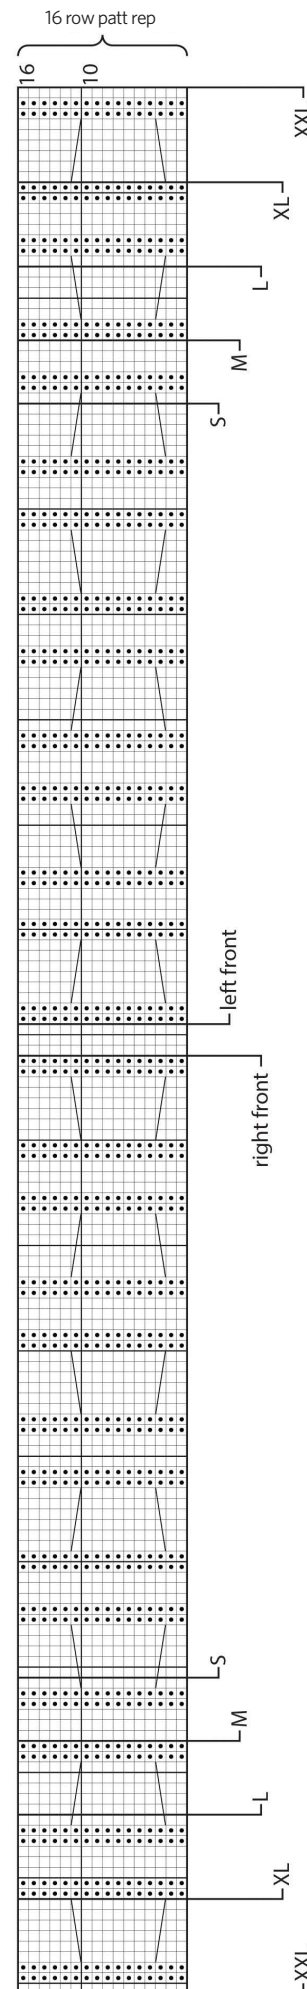

ON THE BLOCKS

Blocking is the process of stretching and shaping your finished items to create the correct dimensions from the pattern and even out your stitches. It is also really useful for ensuring that pieces to be joined fit well together. There are a few different ways to achieve this, so check the information on the yarn ball band and pick the most suitable option.

Wet blocking: dampen the pieces so that they are wet through and gently squeeze out the excess water. Lay out the pieces and pin them to the correct measurements,

then leave them to dry. For delicate fibres and lace projects, you can just spritz the pieces with a water spray, rather than submerging them fully.

Steaming: lay a damp cloth over your work and gently iron over the top – do not iron directly on to your knitting. Continue to iron until the cloth is dry. Another option is to gently hover over your work with the iron and apply steam until the knitting relaxes, this is good for delicate projects and textured stitches. Pin to the desired measurements and allow to set.

KNIT STITCH

1 Once cast on, insert the tip of the right needle upwards and from front to back into the top stitch on the left needle. The right hand needle should sit behind the left hand one. Wrap the ball end of yarn anticlockwise around the tip of the right hand needle.

2 Using the right hand needle, pull a loop of the wrapped yarn through the original stitch to create a new one on the right hand needle. Slide the original stitch off the left hand needle. Repeat from step one. You are now knitting! The knit stitch can be combined with other stitches to create hundreds of different stitch patterns.

- **Wrap and turn**, p20

p27

MAKING A SLIP KNOT

1 Holding the yarn under your left thumb, wrap it twice around your left index and middle fingers, with the second loop closer to the base of the fingers. With the backs of the fingers uppermost, insert the tip of the needle beneath the first loop and over the second, and pull the second loop under the first.

2 Remove the two fingers and gently tug on both ends of yarn to tighten the slip knot around the needle.

GRAFT THE TOE

Kitchener Stitch is the method used to achieve this. It is worked as follows:

SET UP: Before starting you need to prepare the stitches on the needle. Hold the two needles with the remaining stitches parallel. The loose end of yarn should be coming from the back needle and lying to the right of the work.

1 Thread yarn end onto a tapestry needle and insert it purlwise into the first stitch on the needle closest to you. Pull the yarn through but leave the stitch on the needle.

2 Insert the tapestry needle knitwise into the first stitch on the back needle and pull the yarn through, leaving the stitch on the needle.

3 Having set up as shown in steps 1 and 2, repeat steps 3 and 4 until all stitches have been grafted. Insert the tapestry needle knitwise into the first stitch on the front needle and slide the stitch off. Before you pull the yarn through this stitch insert the tapestry needle into the next stitch on the front needle purlwise and pull the yarn through, this time leaving the stitch on the needle.

4 Insert the tapestry needle purlwise into the first stitch on the back needle and slide it off. Before pulling the yarn through this stitch, insert the tapestry needle into the next stitch on the back needle knitwise and pull the yarn through, leaving the stitch on the needle.

CABLE CAST ON

1 Create a slipknot on your left hand needle, pulling it taut (but not too tight). Carefully insert the right needle into the knot from front to back, passing under the left hand needle. Wrap the ball end of yarn anticlockwise around the point of the right needle.

2 Pull the loop that forms back through the original stitch (knot) and insert the tip of the left hand needle into the new stitch from underneath to transfer it from the right hand to the left hand needle. There should now be two stitches on the left hand needle.

3 Insert the right needle between the two stitches on the left needle and wrap the yarn around the needle tip anticlockwise. Draw this loop through to make a stitch and slip it up and onto the left needle. Repeat this creating a new loop behind the last stitch and passing it left needle in front of the previous one.

BACK STITCH

1 Pin the pieces to be joined, with the right sides together. Thread the loose end of yarn onto a tapestry needle. Start by stitching the two outer edges together, then bring the needle through the two pieces 1cm from back to front ahead of the previous stitch.

2 Push the needle back through at the position where the yarn emerged from the previous stitch. Return it to the front of the work, approx 1cm ahead of the stitch just made. Repeat this until the whole join is complete, working in a straight line.

JOINING CAST OFF EDGES

1 Lay the two pieces to be joined right side up and with the cast off edges touching. Thread a tapestry needle with the loose yarn and push this through the centre of the first stitch, and then in and out through the centres of two stitches on the opposite side.

2 Take the needle over to the first side and insert where it previously exited, bringing it out through the centre of the next stitch. Repeat this process alternating sides and stitching single stitches until the pieces are joined.

BEGINNING A SEAM

1 With the pieces placed next to each other with right side upwards, thread the yarn tail through the fabric after the first stitch, moving the needle from front to back. Then, take the needle behind the first stitch on the second piece from the back of the work to the front. The yarn will form a figure 8. Tug gently to secure.

1 With the two pieces to be joined lying next to each other, hook the horizontal bar of the first stitch with the tapestry needle. Move to the other piece and hook the first horizontal bar of the stitch on that side.
2 Repeat this moving from one piece to the next and pulling the yarn to tighten the join.

Julia's LAST WORD...

We talk to Julia Farwell-Clay about her love of knitting fabulous jumpers!

“Inspiration for me is different for every sweater”

Chicago-born Julia Farwell-Clay has been knitting since childhood, and developing her own knitwear patterns and designs has led to her being able to craft some really beautifully bright and eye-catching jumpers. We talk to the Boston resident about her early knitting days, and how it's opened doors for her to travel and publish her designs.

My mother taught me to knit when I was very young, but it really clicked for me when I was nine years old and we had a Danish exchange student staying with us. She gave me yarn in my favourite colours and always had fun things in mind for me to make, so I was hooked from there. My favourite things to make are sweaters and cardigans. Because I'm tall and outside of what used

to be the normal size range for published knitting patterns, it prompted me to start designing my own.

I tend to have maybe three or four projects on the go at any one time. The last thing I knit was my “Rhinebeck” sweater. The New York Sheep & Wool Festival was in October in Rhinebeck, New York, and it's the best sweater watching of the year this side of the Atlantic, so I always make something special for that weekend. Also, I'm beginning to work on an eBook for next year. It's a collaboration with someone I admire, so I'm pretty excited about that.

Inspiration for me is different for every sweater. It might be something as literal as a textile from a museum visit, or something more abstract like the way water ripples around a teaspoon. I just published a cabled

My proudest creation is a colourwork sweater called Hiro that turned out to be so much more interesting than I thought. I've knit four of them myself, but there's a knitter named Cori who has made 11 of them. They're all unique and beautiful, I had a small part in that. That's something I'm really proud of.

My advice for aspiring knitters is...

Value your work. There's a misconception among new designers that they can only become known if they offer their work for free. I believe it's worth the time and effort to contact magazines that pay where your work will be showcased. Magazines will produce your work well, and get your name out there.

cardigan that came from a vase of daffodils on my kitchen table, and the way the stems wove around each other. I look at everything through a design lens, so it's a question that pops into my head a lot: “How would I make something to wear out of that?”

My favourite place to knit is with friends, anywhere that might be. I recently came back from visiting Shetland with fellow knitters Gudrun Johnson and Mary Jane Mucklestone. I really feel that I understand the inspiration in their knitting traditions differently now that I've looked closely at the turf: what's growing under your feet, the constant presence of the horizon, the sheep everywhere! Everything there is just so beautiful and I loved everything about it.

MY MUST-HAVE YARNS

1 SINCERE SHEEP CORMO SPORT - I am partial to everything this yarn stands for. It's sheepy yet soft, and it's naturally dyed by Brooke Sinnes.

2 JAMIESON SPINDRIFT - If I was allowed to do only one knitting thing for the rest of my life, it would be Fair Isle and this would be the yarn.

3 CLASSIC ELITE SONG - I have to have a cotton blend in my collection, and this is a good one. It does everything I'd want in a yarn, cables beautifully, holds an open stitch well, and has a lovely seasonal and soft colour range.
